~~SECRET~~

[illegible] 3 October 1962.

25X1

Memorandum For: [redacted]

Subject : [redacted] 25X1

25X1 Attention : [redacted]

25X1

1. [redacted] requests that the original Soviet 1:1,000,000 Sheet "STALINABAD" No. J-42 be enlarged precisely to 1:500,000 with the center graticule lines overlapping by half an inch in order that the four enlarged sheets will overlap slightly. Six copies of these enlargements are requested. It may be desirable to supply him with stable base high quality negatives and let DMS do the rest. He is particularly interested in preserving all spot heights and graticule lines.

He would also like six retention copies of the color separation * CIA Map No. 27227.

25X1

2. As the result of the [redacted] meetings D/GC probably [illegible] be receiving more requests to produce stickup for the targets which appear on the apron or back of the T.F.P. town plans. The delay in stickups will be shortened by having it produced in Washington. I believe we have made some progress with Mary and the draughting office, so with fingers crossed maybe we can maintain a slightly faster pace in producing Town Plans. Next calender year (1963) schedule calls for 25 T.F.P. Town Briefs.

3. Everything is laid on for Hank and if you will send those terrain samples to me for Overseas Survey I will arrange a visit [redacted] 25X1 for 16 November. Enjoyed your visit and found the visit [redacted] 25X1 most profitable.

25X1
